

Datasheet VMW7002CFX01-A05

RedVac vacuum mattress with slits for best compatibility with the restraint system of the rescue stretcher.

This mattress is provided with the approved click system and the multi-chamber system.

The already robust outer shell is additionally equipped with a black TPU protective layer, which can be used as an additional sliding layer in the terrain.

Optionally, this mattress can also be customized with heavy duty handles and or additional straps.

Combination with AK-MedTec warming system. The original aim is to supply heat to the patient by active preheating or immediate heating of the vacuum mattress. The AKM system actively prevents hyperthermia. Length: 205cm

Width head/middle/foot:	63/110/63cm
Patient inside:	TPU film reinforced light
Quantity chamber:	71 chambers (multi chamber)
Handles:	14 removable
Strut:	2 pieces integrated (fiber optics)
Fixation straps:	7 pc / PP textile / 1 brow belt / 1 chin strap
Pack measure:	70x110x25cm
Weight:	9,9kg
UDI-DI – GTIN:	9010710134071
Medical device	EU 2017/745 (MDR) / Medical Devices, Classification I
Fulfilled requirement	ISO 10993-1 (Biocompatibility) / DIN EN 597-1 + -2 (2016) (ignitability)
Applied standard	EN 1865-1:2010 + A1:2015 / EN 1865-2:2010 + A1:2015 EN 1789:2020 / EN 62366-1:2017-07
