

Datasheet VM01X02

The VM01X02 is the standard model in the RedVac product family.
 Made entirely of TPU. Special benefit - unique click system for mounting the straps and handles
 The outside is made with a reinforced, durable TPU - inside / patient side with a soft, supple TPU film.
 The dimensions correspond to the standard specifications.
 This body-tailored mattress enables the mattress to be perfectly shaped to fit the patient.
 The slightly tailed head area can be optimally shaped to the head and thus achieves the best possible stabilization.
 An additional forehead strap makes work easier when putting on the mattress.
 The body-shaped contour also makes it possible to easily fix the mattress on most stretchers.

Length:	200cm
Width head/middle/foot:	36/88/47 cm
Patient inside:	TPU film blue
Quantity chamber:	65 Multi chamber
Handles:	8 removable
Feature	Click System – easy adjustment of straps, easy cleaning
Fixation straps:	4pc color codes PP + 1 head strap fabric mesh
Pack measure:	75x88x25cm about
Weight:	6,4kg
UDI-DI – GTIN:	9010710111409
Medical device	EU 2017/745 (MDR) / Medical Devices, Classification I
Fulfilled requirement	ISO 10993-1 (Biocompatibility) / DIN EN 597-1 + -2 (2016) (ignitability)
Applied standard	EN 1865-1:2010 + A1:2015 / EN 1865-2:2010 + A1:2015 EN 1789:2020 / EN 62366-1:2017-0
